

VAUGHAN FLUSHLESS MECHANICAL CARTRIDGE SEAL

Materials of Construction

Housing:	Stainless Steel or Ductile Iron
Seal Sleeve:	17-4PH stainless steel
Seal Faces:	Silicon Carbide or Tungsten Carbide
Springs:	Stainless Steel
Elastomers:	Viton

Features & Benefits

- Eliminates the need for a stuffing box so grit and debris are not trapped around the seal.
- Located immediately behind the impeller to maximize the cooling and flushing provided by the impeller pumpout vanes.
- Springs are shielded from the fluid being pumped.
- Seal is covered under Vaughan pump warranty. Built by Vaughan, backed by Vaughan.
- No flush lines required after pump installation.
- Your best choice for a mechanical seal in dirty fluids like digester sludge when flush water is unavailable or undesirable.
- Simplified installation during pump repair with no adjustments needed by the installer.
- Rugged design with proven reliability in municipal, industrial, and agricultural applications since 1991.
